

Radiation Therapist – Regina and Saskatoon

We're looking to welcome a **full-time Radiation Therapist I** to the Saskatchewan Cancer Agency.

ABOUT US:

The Saskatchewan Cancer Agency (SCA) provides leadership in health promotion, early detection, treatment and research for cancer at our two cancer centres, the Allan Blair Cancer Centre in Regina, and the Saskatoon Cancer Centre. Provincially, we provide services to around 10,000 patients annually and our radiation oncology services account for 2,400 patients annually. Our goal is to deliver safe, person-centric care; we value teamwork, and encourage colleagues to work together.

Our Radiation Therapy department delivers various **types of radiation technique** including:

- Stereotactic body radiotherapy (SBRT)
- Stereotactic radiosurgery (SRS)
- High dose rate (HDR) brachytherapy
- Total body irradiation (TBI)
- Pediatric radiation oncology

Both of our Cancer Centres use the following **equipment**

- Varian linacs (mix of TrueBeams and iX)
- Siemens Confidence CT
- HDR Brachytherapy-Oncentra
- Orthovoltage unit
- Varian Eclipse treatment planning system
- In-house 3D printing for clinical needs

ABOUT THE POSITION:

The Radiation Therapist I prepares plans and delivers ionizing radiation treatments to cancer patients as prescribed by a Radiation Oncologist. The Radiation Therapist provides patient assessment and education for radiation treatment and side effects. The Radiation Therapist I reports to the Site Manager of Radiation Therapy, and is directly supervised by a Radiation Therapist II.
