

Population Health Program Lead

About the Position:

The population health program lead at the Saskatchewan Cancer Agency is a member of the Population Health department, which strives to improve health outcomes for all Saskatchewan residents and reduce health disparities between population groups in the province.

The program lead is a content expert on the screening pathway. Overseeing provincial programs dedicated to population-based cancer screening, they lead all aspects of these programs, including planning, development, implementation, maintenance, monitoring, reporting and evaluation.

They ensure the Cancer Agency's early detection programs continue to be of high value to Saskatchewan residents and contribute to reducing the burden of cancer in the province.

The program lead establishes and maintains relationships with various stakeholder groups, such as clients, health professionals, government agencies and community.

Job Requirements:

Education

- Bachelor's degree in a related health discipline or health-care administration (Master's degree preferred)

Experience

- Five years' demonstrated project management or leadership experience
- One year of previous supervisory/management experience

Work with us!

The Saskatchewan Cancer Agency is a provincial health-care organization dedicated to providing cancer care for the people of Saskatchewan. Our compassionate and knowledgeable team provides leadership in health promotion, early detection, treatment and research for cancer.

We run two cancer centres, the Allan Blair Cancer Centre in Regina, and the Saskatoon Cancer Centre. We also provide services in rural communities in partnership with hospitals through the Community Oncology Program.

Our vision is a healthy population free from cancer, and our more than 900 dedicated employees work hard every day towards this vision.

For the past 90 years, our teams have been leading revolutionary technologies that help make our treatments as effective as possible to help our patients live longer, fuller lives.

In 2022, the Cancer Agency received an Exemplary Standing for safety and quality from Accreditation Canada, the highest achievement a health-care organization can receive.

Note: All positions at the Saskatchewan Cancer Agency require a criminal record check.
